HOW THIS PASSPORT WORKS

1. Every location you visit is **automatically approved for 30 minutes** of professional development time. You do not need to track the clock yourself.
2. The manager or educator at each facility signs your passport for their location **at the time of your visit** — one signature per location.
3. If you spend **extended time** at a location, the manager initials the *Additional time* box and writes the extra minutes. That time is added to your certificate.
4. Tick whether the visit took place at the **Thursday evening** or the **Saturday morning** event.
